

# 1.1.1

## New

- Added a meeting start-up validation message to prevent errors.
- [BEE-807] - Confirmation message to start a meeting.

## Modifications

- The online help has been updated to add the new features.
- Fewer clicks are required to select the meetings date and time.
- Premium version limits adjustment.

## Fixed Issues

- Scrolling pages on mobile devices was not smooth.
- It was possible to remove all users from a team.
- A scheduled meeting could not be moved in time.
- Improved display and text and icons alignment for a more enjoyable visual experience.
- Fixed minor issues.
