

0.9.3

New

- Team members now receive an email notifying them that a user wishes to join the team.
- Users receive an email to inform them that their demand to join a team has been accepted or declined.
- It is now possible, as a team member, to remove a teammate for the team.
- Available storage space for an organization shows in the menu.
- From now on, users can close their Beenote account by themselves.
- Added a “Contact Us” button in the user’s menu.

Modifications

- It is now possible to delete a meeting if it is in minute preparation by another user.
- It is possible to modify an upcoming meeting directly via the Beespace.
- A suppression confirmation of the various items composing the added meeting.
- During a meeting, the next topic is automatically open to facilitate note taking and follow up of the meeting by the others participants.

Fixed Issues

- Text from the button RESET PASSWORD was incomplete on the small displays.
- A bee was displayed during the note taking instead of the user avatar.
- A horizontal scroll bar was displayed at the bottom of the menu.
- Date and time selector provoked the closure of the associated task during the selection.
- Certain windows was floating in an IOS environment.
- It was possible to define the same user as responsible as well as delegate in a task.
