

## 0.9.4

### New

- In case of failure or maintenance, Beenote is now redirected to an information page.
- A warning appears on the screen when the storage space limit is reached or exceeded.

### Modifications

- Online help has been updated to integrate new functionalities.
- Revision and modification of the email text sent by Beenote.

### Fixed Issues

- Vertical scrolling bar was missing from the attendance window in the IE11 browser.
- Display wasn't updated when a user was removed from a team.
- It wasn't possible to open a joint file during the meeting planning.
- User's avatars weren't correctly displayed during the meeting duplication.
- Display and texts and icons alignment improvement for a more pleasant visual experience.
- Corrective of minor problems.
