

1.0.1

New

- Print the agenda of past meetings.
- It is possible to add URL links to meetings outside of planning.
- Increased security of the registration and/or connection sequence with the use of reCAPTCHA.
- The organization's Super Administrator has a button to send the user a password reset email.
- Multiple filters selections.

Modifications

- Filters and sorting options added to the published meeting section to ease searching.
- New topic insertion between points when preparing minutes.

Correctives

- It was possible to delete all topics from a meeting in preparation of minutes.
- Audio recording overwrites the note's contents.
- UTC time was used in invitations emails.
- User's avatar wasn't display in the account parameters.
- Orthographical correctives
