

1.2.0

New

- The agenda and minutes are now available in PDF format. Consequently, the interface has been modified to allow saving them and/or sending them by e-mail.
- Personal note taking is now possible during and outside meetings. They are searchable and editable from anywhere in Beenote.
- Possibility to reset a meeting started by mistake.
- Possibility to unpublish a meeting.
- Payment implementation by organization.

Modifications

- Design modification: new icons and ergonomics improvement.
- Added the date until the link to Beenote, via an invitation email or minutes, is valid for a guest outside the organization.
- The online help has been updated to incorporate the new features of Beenote.

Fixed Issues

- It was possible to delete all team files.
- It was no longer possible to move a scheduled meeting in time.
- A meeting with no agenda could not be duplicated.
- It was possible to create a meeting without being part of a team.
- It was no longer possible to create new customers in billing.
